Brice Ali Byiringiro

Saitama, Japan | bricealibyilingiro@gmail.com | +(81)80-5069-4762 | www.linkedin.com/in/briceali

PROFILE

Junior developer with hands-on experience from intensive internship programs at Japanese tech companies. Demonstrated rapid learning ability by building functional applications in one-week intensive programs. Combines an engineering background with practical software development skills. Fluent in both English and Japanese with a strong problem-solving mindset and ability to identify real business needs.

TECHNICAL SKILLS

Programming Languages and DB	Tools and Platforms	Soft skills
HTML/CSS, JavaScript, Python, Typescript, React, Flask, Node.js, MongoDB, SQL, PostgreSQL	Git&GitHub, AWS (basics), AppSuite, Chrome Dev Tools, Slack, VSCode, MS Office	Rapid learning and adaptability, Effective communication, Problem-solving skills

INTERNSHIP EXPERIENCE

No-Code Application Development Intern | NEOJAPAN   **Yokohama, Japan | 18-22, August 2025**
- Collaborated with team of 4 in agile environment to build shift management system prototype using AppSuite
- Learned no-code platform from scratch and contributed to functional prototype within one-week intensive program
- Participated in feature design discussions, drawing from personal experience in retail work

Web Development Intern | JOUHOU GIKEN   **Tochigi, Japan | 08-12, September 2025**
- Developed employee data management web application using Flask, AWS , and SQL
- Implemented CRUD operations for employee records with form validation and error handling
- Deployed application to AWS EC2 and designed relational database schema for storing employee information
- Learned professional development workflows including Git version control and cloud deployment procedures

PERSONAL PROJECTS

Chrome Extension for Shift Management
- Built Chrome extension to automatically extract work shifts and add them to Google Calendar
- Solved personal scheduling problem using JavaScript DOM manipulation and Calendar API
- Eliminated manual data entry for coordinating part-time work with academic schedule

Personal Portfolio & Web Applications
- Developed a full-stack Notes App with user authentication and CRUD operations
- Implemented responsive design and RESTful API architecture
- Deployed using Vercel for frontend and Railway for backend – Demo: [NotesApp]

WORK EXPERIENCE

Part-time Sales Staff | ALPEN TOKYO   **Tokyo, Japan | Apr 2023 — Present**
- Utilized multilingual skills (English/Japanese) to assist both domestic and international customers
- Developed customer service and communication skills in a fast-paced retail environment
- Contributed to a positive reputation as a foreigner-friendly store

---

EDUCATION

Nagaoka National College of Technology   **Nagaoka, Japan | Apr 2020 — Mar 2023**
- Associate Degree in Civil Engineering
- Research: "Strength Characteristics of Cross-Sectional Columns Made of SUS316 Stainless Steel"
- Gained experience with technical analysis and project documentation
- Guided new international students to help them adapt to campus life
- Organized cultural exchange games and networking events to promote Japanese language practice and cultural integration

Saitama University | B.Sc. in Civil Engineering   **Saitama, Japan | Apr 2023 — Present**
- Specialized in Structural Analysis and Bridge Design, gaining strong analytical and problem-solving skills
- Self-taught programming and software development, gaining hands-on experience with JavaScript, React, and backend technologies
