

BRICE BYIRINGIRO

Full-Stack Software Engineer | JavaScript, Python, React, Node.js
bricealbyilingiro@gmail.com | +250 781 589 734 | Kigali, Rwanda | [LinkedIn](#) | [Portfolio](#)

SUMMARY

Full-Stack Software Engineer with 2+ years of hands-on experience building scalable APIs, RESTful services, and data-driven web applications using JavaScript (React, Node.js) and Python. Proven ability to ship production-grade features, design maintainable backend systems, and collaborate cross-functionally in agile environments. Uniquely trilingual (English, Japanese, Kinyarwanda), with deep experience in high-output teams. Eager to contribute to mission-driven digital products and grow rapidly under senior engineering guidance.

EXPERIENCE

Alpen Co., Ltd. – Part-Time Sales Staff – Tokyo, Japan

Apr 2023 – Apr 2026

- Built a personal Chrome Extension to automate exporting shift schedules to Google Calendar via the Google Calendar API and OAuth 2.0; adopted by a small group of colleagues after manually installing it on their machines.
- Managed digital inventory systems and maintained accurate stock data across e-commerce platforms, ensuring data integrity at scale.
- Operated in a high-performance retail environment that earned a Guinness World Record for the most running shoes sold in 12 hours (1,200+ pairs). [Reference](#)
- Served as primary point of contact for English and Japanese-speaking international customers, bridging communication gaps and directly increasing conversion in a multilingual environment.

Independent – Freelance Developer – Remote

2022 – Present

- Built full-stack web applications using the MERN stack (MongoDB, Express.js, React, Node.js), implementing REST API design, JWT authentication, and responsive UI components.
- Built backend projects using PHP with Laravel (MVC, Eloquent ORM, Blade templating) and raw PHP with PDO and database migrations, to develop a deep understanding of framework internals.
- Practised clean code structure, separation of concerns, and Git-based version control across all personal projects.

SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, PHP, SQL, Bash

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, NestJS, Express.js, PHP (Laravel, raw), REST APIs
Databases: PostgreSQL, MongoDB, MySQL, Raw SQL / migrations
DevOps / Tools: Git / GitHub, Docker (basic), CI/CD awareness, Linux/Bash, Postman
Cloud: AWS (S3, EC2 exposure)
Testing: Manual API testing, debugging, basic unit testing

EDUCATION

National Institute of Technology, Nagaoka College – Associate’s Degree, Civil Engineering – Nagaoka, Japan

Apr 2020 – Mar 2023

- Completed a rigorous Japanese-language engineering curriculum; developed strong analytical thinking, systems design intuition, and structured problem-solving skills.
- Awarded MEXT Scholarship by the Japanese Government in recognition of academic achievement.
- Awarded the Students’ Ambassador Certificate for planning and participating in cross-cultural and sports events, representing the student body in international activities.

Tokyo Japanese Language School – Japanese Language & Culture – Tokyo, Japan

Apr 2019 – Mar 2020

- Completed intensive Japanese language and culture courses as preparatory training before entering an engineering college in Japan.

PROJECTS

Agakayi Notes App | React · Node.js · Express · MongoDB · JWT | [[Live](#)] | [[Github](#)]

- Built a full-stack note management application with secure JWT authentication, protected routes, and RESTful CRUD APIs, with a responsive UI built in React.
- Structured backend for scalability; cleanly separated route handlers, middleware, and data access layers following MVC conventions.

Rshift Extraction Chrome Extension | JavaScript · DOM Manipulation · Google Calendar API · OAuth 2.0 | [[Github](#)]

- Built a browser automation tool that extracts structured shift schedules from web pages via DOM manipulation and exports them to Google Calendar in one click via the Calendar API with OAuth 2.0.
- Configured Chrome Extension manifest, content script injection, and background service workers.

LANGUAGES

English (Fluent) · Japanese (Fluent) · Kinyarwanda (Native) · French (Intermediate)
